Dear Recruiter,

I am writing to enquire about the opening for the software engineering intern position. I offer the experience required through building websites using HTML, CSS, and JavaScript. I also possess the ability to work proficiently and learn quickly.

My portfolio highlights my strong programming skills, but I also have other skills that align with this position. Through working with students at my university, I am a strong team player, communicator, and I am able to adapt to any situation.

I welcome the opportunity to speak with you if you feel that I will be a strong candidate for this position or any other position in your company.

Kind Regards,

Maryam Dawood
